Flirty Feminine Fashions

Soft skirts with swishing hemlines, Grecian style draping and floral dresses in chiffons, silks and crepes are all key pieces in this season's ultra feminine style. Team pretty dresses with killer heels and a waist cinching belt for an edgy look.

Tribal Chic

Look out for Aztec and Navajo tribal inspired design in fabric, prints and accessories, and suede fringing on bags, shoes and jackets.

80's Revival

This season sees a return to the eighties with harem pants, exaggerated shoulders, jumpsuits and boyfriend blazers making a comeback. Think Crystal Carrington meets Material Girl - definitely not for everyone!

So Safari

African inspired animal prints and savannah colours are key for this season's Safari trend - team with chunky wooden beads and bangles to complete the look.

Boy Meets Girl

Androgyny seems set to stay, with skinny leg jeans, tuxedo style blazers, peg top trousers, boyfriend cardigans and fedora hats as key pieces in a palette of black white and grey.

Daring in Denim

Denim is huge this season - from acid washed skinnys, stone washed biker jackets, or indigo shorts and jumpsuits - make sure you have something denim!
